POLICE COMMISSIONER 'SCARED,' WANTS NEW JOB, FRIENDS SAY

MAY TAKE PLACE AT LESS PAY

Wilson Said to Be in Line to Head Metropolitan Commission; Also Hultman

Police Commissioner Herbert A. Wilson and Assistant Life Commissioner Eugene H. Hultman are under consideration for appointment to the chairmanship of the Metropolitan District Commission, according to reports at the State House today.

The vacancy on the Metropolitan District Commission exists because of the resignation of James A. Bailey, effective November 30. The office pays \$16,000 a year.

Commissioner Hultman now receives \$9,000 a year, and the police commissioner receives \$12,000.

Wilson's friends have said that he must receive an appointment to the Metropolitan District Commission as such service would remove him from constant fear that an attempt may be made on his life.

The commissioner has his friends, is beloved by the number of thousands who follow him, and would accept a lower salary in a position of less personal danger.

Officers at police headquarters scoff at the theory, and declare the commissioner has too much to lose to himself than any of his predecessors.

It is said at headquarters that Commissioner Wilson does not receive more threatening letters than any other man in that office now received and that he never worries about it.

At present, Police Commissioner Curtis, Commissioner Wilson, and Commissioner Hultman are in Philadelphia and Baltimore studying traffic work.

The commissioner would not accept the chairmanship of the Metropolitan District Commission, but is hoping for reappointment as Police Commissioner when his term expires.

Officials at police headquarters stated.

CITY LAUGHS AT KLAIR FER OF CHURCH GUNS

Burlington, Vt., Nov. 11.—The entire community is laughing over the fantastic tale of guns, ammunition and poison gas stored in secret passages under St. Mary's Cathedral.

The weird story was told on the witness stand in court by Eugene White of No. 12 Hayward street, testifying in the case in which William R. McCreedy and Gordon E. Wells, alleged Klan "preachers," are accused of robbing the vestry of the Catholic cathedral.

The highly colored story of the cathedral being a veritable arsenal about getting some guns. McCreedy was told the two defendants by William R. Allen, pastor of the cathedral, was "robbed." Wells testified.

"Meyer told of the gas, guns and ammunition being concealed in the cathedral being a veritable arsenal."

"Wells and McCreedy called Meyer a 'kiss' while testifying, after the alleged tale of guns, ammunition and poison gas stored in secret passages under St. Mary's Cathedral."

"I told them I had worked in the cathedral and had occasion to go all through the buildings, but was so much scared by the guns, that I did not go in there," Wells testified.

Another Prodigy Expected to Arrive in Jackie Coogan's Home

Hollywood, Cal., Nov. 10.—Hollywood has plenty to talk about these days, what with divorces and babies and interesting events are expected shortly at the home of Mrs. Jackie Coogan, 21, and Katherine McDonald, who is known off the lot as Mrs. C. P. Johnson.

MARITAL DISCORDS.—Rome Adams, famous actress, has changed her plea for divorce from Tom Moore, substituting desertion for cruelty charges. LITTLE JACKIE COOGAN'S new playmate and the McDonald baby will come in the shape of a whole nursery of new Hollywood babies and one of the pluckiest of the lot is a daughter belonging to Lillian Joy.

LEATRICE LILIAN BAHEN.—The tingling touch of a baby's finger is a far greater thing than all the fame and glory of film, according to Miss Joy.

"Nursing your own baby gives a thrill far greater than seeing one's name in letters 12 feet high," the actress told her friends, as well as newspaper reporters seeking news of intermarriage.

Miss Joy has shouted that forever and a day she wants to be through with pictures, the stage and public life.

HAROLD'S NEW BABY.—Alfred Gluck Land is another new Hollywood baby.

She is the daughter of Harold Lloyd and Mildred Davis. She was born this year and already has done a lot in pictures.

Another recent arrival here is Kermit, the son of Mr. and Mrs. Alan Hale. Miss Hale has been married several years.

Miss Joy thinks so much of her baby that she plans to give up pictures and return to her home in New Orleans to spend the rest of her life "quietly and far from Klieg light."

Baby's Life Saved by Three Transfusions of Father's Blood

New Bedford, Nov. 11.—Three blood transfusions administered by Arthur R. Smith, 22 Green street, Fall River, saved the life of the four-day-old son of St. Luke's Hospital. A girl of blood was given up by the father in the fight against death.

Two days after his birth, physicians declared transfusion alone would save the baby. Mr. Riddle offered his blood. The infant rallied after the first operation and showed signs of improvement.

When the mother was unable to give the blood, the father volunteered to give blood. After the third transfusion the child was greatly improved. Hospital authorities said today the infant would survive.

POLITICIAN IS EGGED AND DUCKED

Haverhill Candidate Lands in Water Trough When Plank Is Yanked

Haverhill, Nov. 11.—Being a candidate for the office of Alderman has no exciting moments, according to Francis Adams, who was yanked out of a water trough at Central square, Haverhill.

The unfriendly crowd yanked the candidate with eggs of rather uncertain vintage as he endeavored to tell the voters why he should be selected as an alderman.

The eggs were laid enough, but Adams, who was standing on a board across a water trough, soon discovered that the water was not so deep as he thought.

In the excitement, someone pulled the board from under the candidate and he was dropped into the water trough.

The police rescued the candidate from the trough and rushed him to a nearby building, where the man was later released.

Says Everyone Should Make INDICANT TEST Same as She Did

The small test has shown Miss Smith, as it has shown others, that acid indigestion, which is the cause of all her ailments, has been removed from the system. Indigestion shows itself in many ways, being dumped into your blood, and when you stop the process it may cause heartburn, indigestion, nervousness, dizziness, gas, flatulence, or even long trouble of other serious diseases.

The alarming part of it is, we do not even realize the Indian is there. But when the appetite and power, the breath fail, when you have dizziness, indigestion, nervousness, dizziness, gas, flatulence, or even long trouble of other serious diseases.

The best thing to do is to have a reliable medicine, and if the medicine is not good, you can get a refund. Dr. Scholl's Zino-pads are the best thing to do. They are the best thing to do. They are the best thing to do.

FIELD FIT TO WED, PRIEST DECLARES

Cleric Testifies at Suit of Niece to Have Marriage Set Aside

New York, Nov. 11.—The priest who was called upon to determine the competency for marriage of Hickson W. Field, who claims to be one of the one per cent who are sane, testified today that he was of the opinion that the defendant was sane at the time of the marriage.

In an affidavit filed in connection with the competency proceedings brought by Field's niece, Louisa Margaret Field, a writer, the Rev. Fr. John H. Dooley testified that he found Field mentally and physically normal prior to his marriage in 1914 to Miss Mary Matthews. Miss Field has petitioned to have the marriage declared void.

In a desire to enhance the reputation of his fiancée, Field, who is said to be a nephew of Cyrus W. Field, who sold the first Atlantic cable, took to attention from Father Dooley. In connection with this impression, the priest said he tested Field in accordance with canon law, to determine his fitness for marriage.

Two days after the marriage, Field, who for forty-three years had been a practicing lawyer and was a member of the New York bar, was found to be sane.

He dropped the action and his niece then petitioned for a sanity commission to examine him.

WANTS ALL BARRED TO PUBLIC

Regrets, However, That Public Utilities Body Is Not Given Facts to Which It Is Entitled

The advisability of the telephone company taking the public into its confidence in its proposed advertising campaign, with reference to the "mysteries" in its accounting system, was set forth by Corporation Counsel E. Mark Sullivan in a statement today.

Mr. Sullivan said he testified at this time in giving assent to the enormous expense incident to this advertising campaign.

His only regret was that the company has not seen fit to offer the explanation before the Public Utilities Commission of this State, and the evidence affecting these several points is in no instance yet final.

WANTS PUBLIC TO KNOW

"By public advertisement in the papers it renews its intention to file a petition for a general increase in rates for all classes of service. It further announces that preparatory to doing this it is going to carry on an advertising campaign in which it hopes to make the public acquainted with the reasons that compel it to ask for these general increases in rates."

"Personally, I believe it would be well if all public utilities were to take the public into their confidence and make a frank disclosure to the public by the New England Telephone & Telegraph Company of its financial condition, service and expense of operation will be of equal benefit to the public and the company."

"There is no sane and honest citizen of this Commonwealth who does not wish to see a great public utility, such as the New England Telephone Company, on a sound and healthy financial basis, and it is apparent that the condition on which he had where adequate rates are paid for adequate service."

"It is our honest belief that the company is putting too much money annually into its reserve for depreciation to the extent approximately of \$1,000,000 more than is reasonably necessary, and this is an annual charge against rates."

"The company during these hearings has not yet attempted to clarify this seemingly exaggerated charge against the public, which is being added to its accumulating already over \$4,000,000."

LOOKS SUSPICIOUS

"What makes this contract suspicious in addition to its being enormous is that the American Telephone & Telegraph Company owns a majority and controlling interest in the stock of the New England Telephone & Telegraph Company. In addition to this four and one-half per cent. of all the New England Company's gross operating revenue is paid to the American Telephone & Telegraph Company. The New England Company pays the most of its supplies from the Western Electric Company, which, in turn, pays before the public."

Hub Girl, Undaunted by Her Failure, Now Big Success in Business

LILLIAN CHADBOURNE

Started in Tie-Making Venture and After Reverses Became Prosperous

To impress them that you are going to succeed, that your hand-made merchandise would sell is still another thing to be admired.

For a young girl not fully convinced of her own ability, not thoroughly confident of herself, and not favorably impressed with her own endowments, the odds would have been too great and she would have dropped out.

CONVINCED THE MAN

But Lillian Chadbourne wasn't that kind of a girl. She knew what she had and what she had. Her yielding wasn't lived among what she had. And so she stuck.

For a capital of \$300 she opened "The Tie Shop" ready to sell 500 hand-made ties, a one-piece tie such as her mother taught her. She picked her own color designs, made the ties, sold them, and kept up the bookkeeping end of her business. She was found to make a success of the thing for it was an exceptional venture as far as the owners of her shop were concerned.

The first month of her project proved a fiasco. She was behind in her rent, embarrassed and pretty much disgusted with life in general. She was trying to get some thing to make a go of things and not a soul to help her. About \$10 was left on her bank roll with no means of replenishing same in view.

GOES DEAD BIRD

Still, any happy ending by O. Henry, the next month brought sunshine and rays of a bright future. She sold every one of her ties with demands for more. Recommendations began coming in and soon the fair Lillian smiled again, forgot about a woman not having a chance and made some more ties.

This was nine years ago. Today Miss Chadbourne enjoys her twenty-eight years of age with ease and comfort, her own car and a personal turn, is owned exclusively by the American Telephone & Telegraph Company, and the stock of the Western Electric Company is paying 10 per cent. to the parent company.

"I, for one at least, would be very glad if these several mysteries of the Telephone Company's accounting system had been adequately explained in the proposed advertising campaign before the public."

GRACE ABOUT ROGERS' DEATH

Yale Campus Beauty Expected to Make Full Confession to Police

New Haven, Nov. 11 (Universal).—Miss Marjorie Schneider, the beautiful favorite of the Yale campus, is expected to make a clean breast and tell all she knows about the mysterious death of Charles Rogers.

The new investigation into the strange case is expected to get under way in a day or two after being delayed. It will be based on new evidence that has come to light since Coroner Mix found the death to be a "regrettable accident."

Marjorie was driving the car in which Rogers was killed when they were returning from a wild party to one of the numerous road houses near here.

Constable Gustave Uhl, who is investigating the case for Prosecutor Wm. Chase, intimated that Miss Schneider may tell a startling story.

TO SEE GIRL TODAY

"I am looking everything over here," he said. "It may not be necessary in all other instances, beyond those I have already interviewed."

It is evident, however, that Uhl intends to see the evidence he has already gathered as a wedge to get the girl to tell all she knows.

She said she planned to see the girl today. He had decided, he said, because of her nervous condition.

"I know where to go when I want to see the young lady," he said. "This is in New Haven now."

When Uhl was asked if he is of the opinion that Rogers was slain, he replied: "It is a very peculiar situation."

STATE POLICE IN CASE

He declined to say further. He also refused to say anything about the mysterious new car that Mrs. Ruth Blaine is reported to have seen when she arrived at the death scene.

Robert T. Burley, chief of the State Police, took a hand in the probe but said he is mainly interested in the chance that Miss Schneider will tell the police what she knows.

Interest in society circles here is waning from the facts surrounding the death of Rogers to speculation as to what new stories the investigation may uncover, for it has been estimated that the probe will blow the top off New Haven's secret night life.

Groh and Meusel of Giants May Go With the Dodgers

New York, Nov. 11.—A report in circulation today was to the effect that the Brooklyn Dodgers were angling with the New York Giants for Emil Meusel, outfielder, and Heinie Groh, third baseman. It was said that the Dodgers were willing to part with Dutch Kuether, left hand pitcher, but have balked at including Rube Ehrhardt, their sensational first baseman.

GUNNELL HOPES TO GIVE GREEN HARD TUSSELE

Both Cornell and Dartmouth came through their games Saturday in good shape and each will be able to put its full strength on the field. For Dartmouth a victory will mean the realization of the cherished hope to go through the season unbeaten, as this is the last game on the Green schedule. For Cornell a triumph would go far to atone for the disappointments suffered by a college's pupils earlier in the season.

HARVARD never recovered from the shock of that, not only to the middle system, reserved to the highest athletes, but to the very high. But Yale will be something else again. The Blue coaches and players took it all. They know what to expect. The Tiger played everything, but with the fence of grating, a supposedly better strategy into some of the front lines.
